Dear Members of the Plastic Recycling Industry:

The Department of Conservation's Division of Recycling (Division) has a contract with the California Integrated Waste Management Board (CIWMB) to perform the 1996 Post-Consumer Rigid Plastic Container (RPPC) Recycling Survey. The survey is being conducted in compliance with the requirements of SB 235 (Public Resources Code Section 42310), specifying that the CIWMB must determine annually the all-container RPPC recycling rate.

Attached you will find the survey that is to be completed and mailed back or faxed to the Division. In keeping with the Division's past practices and legal obligations regarding proprietary information, all information will be kept in strictest confidence. Once the survey is completed and analyzed, only the aggregate information will be given to the CIWMB for calculation of the recycling rate.

In the interest of conserving your valuable time, the Division has designed the survey to be simple and as easy to complete as possible. We have asked you for the minimal information necessary for the CIWMB to meet its mandate. Please be sure to read both the definitions and the survey questions carefully and provide us with the most accurate information possible.

If you have any questions about the survey or the survey form, please contact any of the following:

Sue Ingle

(916) 322-1688

1996 Postconsumer Rigid Plastic Packaging Container Recycling Survey

Thank you for participating in this survey. We have only 2 questions for you (and you may not even have to inswer all of them!) Each question asks about your firm's involvement with Rigid Plastic Packaging Contains (nown as RPPCs.) RPPC: A "Rigid Plastic Packaging Container", for the purposes of this survey, is any container that is all of the following: 1. It is made entirely of plastic; 2. It is a packaging container in which a product is sold; 3. It is rigid and therefore capable of maintaining its shape; 4. It is capable of multiple reclosures with its attached or unattached lid; 5. It is normally used to store a product for 7 days or longer and therefore does not include deli trays or fast food packaging. Examples of RPPCs include beverage, food and household products such as soda bottles, milk jugs,		Ke	cycling Survey

	prokers. Question 2 also will ask you to not report your shipments to MRFs , re's what those terms mean:
Export:	"Exported" postconsumer RPPCs are sent directly from your facility to some location outside the United States.
End-User:	"End-Users" are companies that use recycled postconsumer RPPCs to manufacture new products.
Reclaimer:	"Reclaimers" are companies that pelletize or prepare postconsumer RPPCs for end-users.
Broker:	"Brokers" are individuals or companies engaged in the buying and selling of postconsumer RPPCs. Brokers generally do not handle the material directly.
\F/Processor/Handler:	"MRFs, processors and handlers" are companies engaged in sorting, baling and/or otherwise densifying postconsumer RPPCs.
